

System Information Statement (SIS)

ARTS Version: 1.0/main
Product: Ollama
Maker: Ollama Inc.

LOD 0, Composite AI Content Score (CACS): 2
LOD 1, Rating Designator (RD): 00NN/1/1/0/0

LOD 2, ARTS Label

LOD 3, System Information Statement

Position 1, AI Production Scale (0): Hand-written, open-source repository compiled primarily in Go and C++.

Position 2, Data Center Environmental Impact Score (0): The desktop application software draws very low resource overhead. The core utility doesn't run cloud data center infrastructure. Models are downloaded from the web by the end-user, but inference is local.

Position 3, Production/Code Use (Type N): AI tools are not known to be used for code creation.

Position 4, Generative AI Use (Type N): No generative assets are created by, for or deployed with the application.

System Modifiers:

System Access (1): Ollama runs as a local background service to manage files and models inside its specific directory using basic local execution privileges.

Network Connectivity (1): There is no network connectivity between local models and the Internet. Models may be occasionally downloaded by the end user.

Sensing (0): Ollama runs as a local background service (a daemon) to manage files and models inside its specific directory, it requires basic local execution privileges. However, it operates safely within standard user-level permissions and doesn't require root administrative overrides to scramble external system files.

Chat Interface (0): The desktop client itself does not have a chat interface.

Additional Specifications & Technical Notes:

- This product is being considered distinctly from Ollama Cloud services.
